Revised: October 19, 1978

Revision Number: 1

Commercial photographers may, through arrangements with the principals, take pictures in the elementary schools and in the junior high schools.

There shall be no pressure to encourage pupils to purchase pictures.

Pictures shall not be attached to permanent record cards.

Commercial photography in the senior high schools is sanctioned only if used in connection with school annuals and/or student newspapers.

Junior high school annuals are not approved; however, informal picture books will be permitted. Junior high and elementary schools may print picture books on an annual basis, provided they are paperback cover, are inexpensive and are consistent with the selection of vendors and the bidding process.
