

HealthFest 2015

Each year, CAMC hosts a health fair to provide free and low-cost screenings to the community. This year's event is **Saturday, June 6**. One of our most popular activities is the FREE sports physicals for middle and high school students wishing to play a sport in the next school year.

CAMC Get Physical | Saturday, June 6 | 11 a.m. to 1 p.m.

Students must bring a signed physical form or have a parent/guardian present to sign one for them.

Please note that if our physicians notice anything during the exam that requires a follow-up, we will notify the student and/or guardian.

Other activities at HealthFest for students:

- Text and drive simulator
- Information about volunteering at CAMC
- Information on counseling services and common teen issues

Parents: We have tons of screenings and activities for you, as well, including:

- Low-cost blood work
- Blood pressure checks
- Bone density scans
- Vision and glaucoma screenings
- And much more!
