

POWERFUL PARTNERS

Preparing for the future starts now, but how do students apply what they have learned in school to the real world? Sharing college prep or vocational options and real world scenarios, will help our scholars thrive after high school. Here are some tips and websites to help students navigate the next step in their life.

Real Life Application

Pick two of the topics from the choice board below to participate in during January.

<p>Check all of your grades in Schoology. List any missing assignments and discuss with your teachers when you can turn them in.</p>	<p>Work one hour of community service hours and write a paragraph explaining what you did and how it made you feel.</p>	<p>Think about your favorite class this week. Write a TWEET of 100 characters or less that summarizes why this was your favorite class.</p>
<p>Think about your favorite teacher (it can be this year or in the past). List 5 characteristics about them that made them your favorite. Share this information with them after you are finished.</p>	<p>Make a Venn-diagram that compares and contrasts Algebra and Geometry. Make sure you have at least 5 items in each circle.</p>	<p>Record a 1-minute video explaining how to do a math problem for one of your classmates from an assignment of your choice.</p>
<p>Record yourself giving a dramatic reading of a passage from a story. Include different voices for various characters and sound effects as needed.</p>	<p>Work on multiplication facts with a younger sibling, neighbor, relative or friend (grade 3 or above) You can give them problems to do, or use flashcards.</p>	<p>Find two "bad graphs" from January 2017 to present from newspapers, news reports, social media or any other outlet. Write a response explaining why it is bad and recreate the graph using best graphing practices.</p>
